Dear colleagues,

On behalf of the Regional Center for Talented Youth Belgrade, I am pleased to invite your country to send a team to the 28<sup>th</sup> **International Conference of Young Scientists** which will be held in Belgrade from 07 to 13 April 2022.

The ICYS will be held at the hotel Serbia in Belgrade.

Countries are responsible for their own travel, visas and insurance.

Registration fee is € 250 in case of live format for every participant, including team leaders or, in case of distant format, € 90 for students, only while team leaders participate for free.

As well as the presentations, the ICYS program includes poster presentations and a cultural function. Details of these will be sent to participating countries.

During the ICYS we will also offer excursions to places of great interest –among others the Nikola Tesla Museum, the Belgrade Fortress, the Avala Tower and the Saint Sava Temple.

If you need a formal written invitation to the 28<sup>th</sup> International Conference of Young Scientists, please email us the name, position and address (postal or email address) of the person to whom this letter should be sent.

We look forward to welcoming you to the **International Conference of Young Scientists** in Serbia in 2022.

Nikola Srzentić

Dear colleagues,

Depending on the situation with the pandemic, which we will monitor and follow the recommended measures, on January 15 we will make the final decision on how to maintain:

**POSSIBLE OPTIONS ARE:**

FACE TO FACE - EVERYONE

ONLINE - ALL

COMBINED MODEL - FACE TO FACE/ONLINE

/ and both according to the individual capabilities of each participating country /.

Our great desire is to be able to see each other face to face,

to spend time together, and we will do our best for you to enjoy every moment.

ICYS Steering Committee expresses confidence that thanks to the joint efforts of the SC, the LOC and representatives of the ICYS member countries, it will be able to continue its successful activities to involve students in research investigations, as well as develop friendship and mutual understanding among young people from different countries. We wish you health and success in this difficult time!

Nikola Srzentić
